## Career Objective

Motivated Master's student with strong problem-solving and programming skills, seeking to apply academic knowledge and project experience to real-world software development challenges. Eager to contribute effectively to a dynamic team while continuing to grow as a skilled software professional.

## Skills

- Technical Skills: Java, JavaScript, ReactJS, SQL, HTML, CSS, MS Excel, Power BI, Python
- Soft Skills: Communication, Management, Problem-solving, Time Management, Collaboration, Adaptability
- Frameworks & Tools: Git, VS Code, Java Servlets, MySQL, HTML, CSS, JavaScript

## Projects

- **Exchange Karo – Currency Converter Web App**  
Tech: Java, Servlets, HTML, CSS, JavaScript, MySQL  
Developed a platform enabling seamless item exchange with secure authentication and search features.
- **Stoxy – Stock Price Analyzer**  
Tech: Python, Android Studio, REST API, Machine Learning  
Predicted real-time stock prices using ML integrated through REST APIs.
- **Spotify Cloner**  
Tech: HTML, CSS, JavaScript  
Designed a user interface replicating Spotify with interactive UI/UX.

## Education

- Master of Computer Applications — Alliance University, Bangalore (2024–2026) | CGPA: 7.59
- Bachelor of Computer Applications — ITER SOA University, Bhubaneswar (2021–2024) | CGPA: 7.05
- 12th — Anmol College, Bhubaneswar (2019–2021) | 64%
- 10th — DAV Public School, Paradeep (2017–2018) | 58%

## Internships & Experience

As a fresher, I am keen to apply my academic knowledge and project experience in software development, app development, and UI/UX design.

## Certifications

- Introduction to Java and Object-Oriented Programming — University of Pennsylvania
- Machine Learning: Classification — University of Washington
- Unordered Data Structures — University of Illinois Urbana-Champaign
- Generative AI: Introduction and Applications — IBM
